

English

Report Writing - Write a report on your favourite dinosaur! What does it look like? How tall is it? What does it eat? Does it have any predators? Choose subheadings for your report. Use the planning sheets to plan your work

Descriptive Writing - A day in the life of a dinosaur! Imagine you're a dinosaur roaming the land, looking for food. Think about what might happen during the day. Use expanded noun phrases, lots of adjectives and make your writing as detailed as possible. Use the planning sheet to help you produce your BEST descriptive writing!

Poetry - write an acrostic poem using the initial letter of the word dinosaur. You can write the finished article in your best handwriting on the sheet provided.

Art/DT

Collage! Create a dinosaur collage. Remember our work on collages at the beginning of the year. Think carefully about the colours and textures of your collage or picture. You can use anything you like to create it.

Sketching! Choose your favourite dinosaur and sketch it using pencils. Think about the texture of the dinosaur and make your picture as detailed as possible. (TIP! Use the side of the pencil for shading)

Paper Dinosaurs! Create your own paper dinosaurs using the sheet.

Maths

Perimeter Investigation - Be sure to read the email on the Powerpoint to be clear about your task!

(files marked with a PI)

Measurement Task - How many times bigger than you was a T Rex? Answer the questions on the sheet and add your own.

Home Learning Y3/4

Theme:

Dinosaurs

Outdoor Learning

Fossils are often found in chalk.

Can you go on a nature walk to Whiteleaf Cross and see if you can find some fossils?

PSHE/Mindfulness

Dinosaur colouring sheets - Take time out during your breaks to colour the sheets - see link - or... watch the clouds on a sunny day! Can you see dinosaur shapes?

Science

Investigate

What happened to the Brontosaurus? There used to be a dinosaur with this name in museums but now they don't talk about this. Why is this? Did it ever exist?

Fossils!

Follow the link to the short video about fossilisation and put the process of fossilisation in order at the end...<https://www.bbc.co.uk/bitesize/topics/z9bbkqt/articles/z2ym2p3>

You could even try to make your own fossils - see resources!

Geography

Where in the world did the dinosaurs live?

Research where different dinosaurs have been found across the globe

Use the map provided and mark on well known types of dinosaurs and where their remains were found. You could even draw a key.

History

Unless you're an expert, the age of the dinosaurs can be a confusing one to understand. For example; did the Jurassic Period come before or after the Triassic Period? Did Diplodocus roam the earth at the same time as the T-Rex?

Create your own timeline by hanging some dinosaur facts from your arm! Read the information in the resources..

Challenge: Can you add additional information to your timeline?
