

English – Descriptive Writing

Describe your family members in great detail. Be sure to write using expanded noun phrases and make your writing interesting and engaging for the reader by including adjectives.

Thinks about including 4 paragraphs:

1. Their appearance
2. Their character
3. Their likes/dislikes
4. A funny incident that has happened

Here is my example for you to use as a guide:

The eldest of my three brothers, is Matthew. He is two years younger than me, has short brown hair, freckles, and is a bit taller than me. He has a smiley face and is average build.

He is quiet, kind, and gentle in nature and very funny. He enjoys making people laugh and enjoys laughing at things.

Matthew's passion is football; he knows every World Cup winning team and can even tell you who scored in the matches! He also enjoys watching TV, cycling and spending time with his children. He hates baked beans, tomato ketchup and pickled onions!

The funniest thing that ever happened to him was that we accidentally left him behind at my auntie's house one Christmas, because he was so quiet and there were so many of us!

Think very hard about what you are going to write. Make your text interesting and include details to make your audience smile. We would love to hear about your family members. You can include pets too! Have fun!
