

Maths – Timeline Task

Research the birth years of the people in your family – you can include pets, grandparents, aunts, uncles and cousins too. Draw a timeline on a piece of A4 paper, in landscape orientation. Start with the most recent birth date and then go back as far as you can on the line, marking on others' birth years.

e.g.

1971	1975	2011	2013	2016	2019
Daddy	Mummy	Me	Merryn	Genevieve	Cousin Pip

This is just an example. We hope you manage to go back much further and include far more detail on your timelines!
