RE – Being Part of a Wider Family

Think about being part of your Christian family or our Monks family and look at the video clips and think about how the Hindu people might feel being part of the community of Hindus.

How does it make you feel being part of a family?

Do the things you have in common make you feel special? Do the things that you do together make you feel as though you have a special bond?

Is it a good thing?

Try to record your ideas below on this sheet. If you wish, you can draw a picture of yourself and your Christian family doing something that you do together, or you could draw a picture of the children that you see in the video.
