Book of the Week!

Our book of the week is going to be:
The Frog Olympics by Brian Moses

Look out for your virtual learning link to join in our with book talk this week!

What is your favourite sport? How do you play the game? Use the writing frame to create some instructions for someone in your family to read and follow! Can you use bossy verbs?

Who is your favourite sports star? Write a fact file all about them.

Science

Bouncing balls! Choose three different balls that you have at home. Predict which one will bounce the most when dropped. Drop them from the same height and count how many times they bounce. Was your prediction correct?

Running races! Who is the fastest in your family? Record their times in a table.

Maths

Have a go at creating an obstacle course in your garden or around your house? How many obstacles can you place in the race? Can you time the race to see who is the fastest? If you have to jump - how far can you jump? Measure it!

Use chalk to write your numbers in a game of 'Hopscotch' - what number can you go up to?

Home Learning Theme

Sport!

RE

In sport and playing games, following instructions is really important. In the Bible there is a story about two people called Adam and Eve who didn't follow God's instructions. Colour in the picture of Adam and Eve in the Garden of Eden after watching the PowerPoint of the story..

Art / DT

Follow the PowerPoint on how to draw Moving People! Make sure you have a really sharp pencil ready to draw your line work. Share your artwork on the homelearning@monks.org.uk email.

Athletes have to have a special diet that enables them to be the best at their sport that they can be. Look at the Healthy Eating plate - what consists of a healthy diet? Keep a food diary of what you eat - are you healthy?

Create a menu for an athlete that will keep them fit and healthy.

Key Vocabulary

Create a glossary of words that you have used across all of the different learning tasks. A glossary is a list of words in alphabetical order with definitions.

Add this to the glossary you have been making each week.

Phonics

Use your Phonics' Phase booklet to keep your knowledge as amazing as an Olympian! Don't forget those alien words!

History

The Olympic Games have been around every year since 1896. Can you do some more research about the history of this amazing sporting event? Do you know any other famous sporting events that you can research?

PE

With this week's learning being all about sports there is no better time to get outside and try something new. Have a go at trying a new sport or practicing a skill you have been struggling with.

Geography

Think about the most talented sportsmen and women you know. Which countries do they come from? Use the World Map to write down their names on their country.
