

English

Poetry

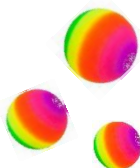

Sunsets – they are bold, brilliant, and rich in colour. Look at the images of different sunsets attached. What colours can you see? Look at the different shades of colour, the patterns in the sky and the clouds. Write a poem to describe a sunset! E.g.

Blazing in gold and quenching in purple,
Leaping like leopards to the sky.

Can you use similes, metaphors or personification in your poem?

Watch this clip to help you:

Newspaper report

Watch this video:

<https://www.youtube.com/watch?v=KMI5l6mOySU>

Imagine if this happened where you live! Write a newspaper report to describe what has happened in this video.

The 5 Ws – What happened? When did it happen? Who sent the colourful bouncy balls? Where did they come from? Why were they there?

Watch this clip to help remind you about newspaper reports:

<https://www.bbc.co.uk/bitesize/topics/z2yycdm/articles/z2qk9qt>

You can use the attached template or create your own!

Check Google Classroom for additional resources.

History/Geography

The Northern Lights

What are the Northern Lights?

Where are they? Can you locate this on a map?

Why are they here? How are they made?

Watch this video to help you:

<https://www.bbc.co.uk/newsround/16710703>

Create a poster or a fact file to show what you've found out! Remember to use layout devices to help organise your research (subheadings, images, captions).

Science

Grow a rainbow experiment!

Cut a rainbow shape out of a paper towel. Use felt tips of markers to colour the ends. Secure the paper towel and dip the ends into two glasses of water. Watch and be amazed! Look at the attached image to help you.

Awe and Wonder!

Research - what makes a rainbow? Watch these videos:

<https://www.youtube.com/watch?v=GqbgJ3c3yhc>

<https://www.youtube.com/watch?v=q73VNpFA-0Q>

Create a poster or a fact file to show what you've found out about how a rainbow is formed!

Home Learning Y5/6

Theme:

Rainbows!

Key Vocabulary

Colours can be used to show our feelings, mood and emotions. We associate colours with different things. Warm colours, such as red, orange and yellow can remind you of fire and volcanoes. Cool colours, like blue, green and violet might remind you of calming, cool waters. There are colours we like and colours we don't like!

Write a list of as many colours as you can think of. Next to each colour, write down what that colour reminds you of or how it makes you feel!

Red = anger, danger, hot, rosy apples
Blue = sad, cold, calm, ocean

Maths

Colour by Numbers

Multiply and Divide by 10, 100 and 1000! Match the answers to the calculations and colour them correctly. The questions are differentiated so you can choose your level!

Challenge: Create your own colour code and add your own questions to the mindfulness picture. You could share it for your class mates to try on Google Classroom or ask someone in your house to complete! Check Google Classroom for additional maths activities.

RE / PHSE

Symbol

A rainbow symbolises positivity and hope. There are lots of quotes that have been created about rainbows! Look at the attached quotes. You could re-create one of the quotes or create your own!

Art/DT

Optical Illusions

A rainbow is an optical illusion! It doesn't exist in one place in the sky, it is a reflection of light and you can't touch it! Optical illusions are used in art, they can play tricks on the person looking at it! They can be black and white or colourful. Watch this video to learn more:

<https://www.bbc.co.uk/bitesize/clips/zs2b6fr>

We've attached examples, with steps you can follow, to create your own 'Op Art!' Share your designs on Google Classrooms!

Eat the Rainbow

Fruits and vegetables are filled with vitamins and minerals. It's important we eat lots of different colours of foods to keep healthy!

Design a meal to include foods of all different colours – look at the 'Eat the Rainbow' attachment to help you. Write an ingredients list and label your meal - maybe you could make it for your family!
